MACK JOHN M. DELA CRUZ, ECE

AI Test Engineer | QA Automation Engineer
Cebu City, Philippines | mjdelacruz.work@gmail.com | +63 916 705 2252 | linkedin.com/in/mackjohn-delacruz

PROFESSIONAL SUMMARY

AI Test Engineer and QA Automation Engineer with 2+ years of experience assuring the quality of enterprise, Salesforce, cloud-based, and AI-powered applications. Skilled in developing automated tests with Playwright, Python, and Pytest; validating conversational AI workflows and generated responses; and performing backend verification using PostgreSQL, SQL, and SOQL. Experienced in Azure DevOps CI/CD environments and Agile teams, with a strong record of identifying defects early and supporting reliable, production-ready releases.

PROFESSIONAL EXPERIENCE

LEXMARK INTERNATIONAL PHILIPPINES — *May 2026 - Present*

AI Test Engineer — *Cebu City, Philippines*

- Contribute to the design and development of a conversational AI automation framework using React, Vite, FastAPI, Azure OpenAI Service, and Azure Database for PostgreSQL.
- Develop and maintain automated tests for conversational AI workflows and AI agent validation using Playwright, Python, and Pytest.
- Evaluate AI-generated responses for accuracy, consistency, workflow execution, and alignment with business requirements; investigate failures across API and database layers.
- Validate REST endpoints, HTTP methods, request payloads, response schemas, and status codes using Postman and automated API checks.
- Create and maintain PostgreSQL tables, perform SQL-based backend validation, and support Azure DevOps CI/CD testing and release activities in a SAFe Agile team.

ACCENTURE INC. — *Aug 2024 - May 2026*

Quality Engineering Analyst — *Manila, Philippines*

- Executed 100-300+ test cases per sprint across UI, backend, Salesforce, and AI-driven features, covering functional, regression, integration, smoke, exploratory, and UAT scenarios.
- Validated Gemini AI-generated outputs for functional accuracy and expected behavior, documented discrepancies, and supported defect resolution.
- Performed SQL and SOQL backend validation to verify application data and Salesforce records; managed defects using HP ALM and Buganizer.
- Contributed to zero critical production defect leakage through structured test execution, defect validation, and cross-functional collaboration.

TECHNICAL SKILLS

Test Automation: Playwright (Python), Pytest, Selenium WebDriver (Java), TestNG, Cucumber BDD, Page Object Model
API and AI Testing: REST APIs, Postman, Contract and Schema Validation, Conversational AI, AI agent workflows, AI-generated Output Validation
Databases and Platforms: PostgreSQL, SQL, SOQL, pgAdmin 4, Salesforce Workbench, Azure DevOps, CI/CD, Git, HP ALM, Buganizer, ServiceNow
Development: React, Vite, FastAPI, Azure OpenAI Service, Azure Database for PostgreSQL
Methods: Functional, Regression, Integration, Smoke, UAT, Exploratory Testing, Agile Scrum, SAFe

EDUCATION

Bataan Peninsula State University — *2019 - 2023*
Bachelor of Science in Electronics Engineering

CERTIFICATIONS AND LICENSES

Certifications: AI Automation - Lexmark (TESDA); Automation Testing ASE Bootcamp - Accenture; Agentic AI and Generative AI Training - Accenture
Licenses: Professional Electronics Engineer (ECE); Professional Electronics Technician (ECT)
